ABOUT THE CURSOR

When navigating the settings menus on your PBTV set top box you will see a square that surrounds the option you currently have selected. If the option you have selected is a white box (check box) or button the cursor will appear as a white and blue square. If the option you have selected drops down to give you multiple options the cursor will turn green. You move the cursor by pressing the various arrows next to the OK button on your PBTV remote.

ENTER WORDS USING THE REMOTE

When creating a new user or entering the name of a favorites menu, you have the option to enter words. Press and hold the KEYBOARD button on the remote until a keyboard shows up on the screen. Then use the ARROWS around the OK button to maneuver around the keyboard. When you have entered the name, press the SEND button on the keyboard display.

USING THE GUIDE

When you press the GUIDE button on your remote a screen will display showing a list of shows that are currently running, you can move through the channels using the UP and DOWN arrows on your remote. You can also look forward to see what shows will be airing at a later time. To do this you press the right arrow on your remote, each time you do this will move you over one hour. To go back in the guide you can press the left arrow. To show the program you have selected press OK on the remote.

SEARCH THE GUIDE

• Press MENU
• Arrow over to SEARCH and press OK
• Use the LAST CHANNEL button to clear off the writing "enter text"
• Press OK to pull up an alpha pad
• Enter the appropriate letters
• Press DONE on the key pad

ADDING A REMINDER

If you wish to be reminded when a program is going to start you can set a reminder.

• Press GUIDE on the Remote
• Find the Program you would like to be reminded about.
• Press OK on the remote.
• Make sure the cursor is around REMINDER.
• Press OK on the remote.
• A reminder will now show when this program starts.

SCHEDULING AN AUTO TUNE

If there is a program that you want your TV to tune to automatically when it starts, you can schedule an auto tune. An Auto Tune is best used for a program

that you wish to have tuned once. If you wish to have a program scheduled every time it's on you would schedule an event.

• Press the Guide Button
• Find the Program you would like to be reminded about.
• Press OK on the remote.
• Make sure the cursor is around AUTO TUNE.
• Press OK on the remote.
• Your TV will automatically change to that program when it starts.

SCHEDULING AN EVENT

You may schedule an event if you wish for a program to be tuned every time it is shown, or for a certain channel to be tuned at certain times of day.

• Find the Program/Time Slot and Channel you wish to schedule an event for.
• Press OK on the Remote.
• Press the DOWN ARROW on the remote until SCHEDULE AN EVENT is selected.
• Press OK on the Remote.

TO GET INTO SETTINGS

• Press Menu.
• Press Arrows to Move the cursor around Settings Option.
• Press OK on the remote.
• Type in Password (Default is 0).
• Press OK on the remote.

TO MAKE/UNMAKE RENTALS PRIVATE

About this Setting: If your rentals are private they will only be watch able on the set top box they were ordered on. If your rentals are not private any set top box in your house can watch that rental.

• Go into Settings
• Move Cursor around White Box next to Make Rentals Private.
• Press OK if White Box is not checked to make rentals private.
• Press OK if White Box is checked to make them not be private.
• Move the Cursor down to OK on the screen and press OK on the remote to save your settings.

ENABLE/DISABLE LOGIN

About this Setting: If your login is enabled then when your set top box is reset you will get a login screen requiring you to enter your username and password. If this setting is disabled you will not be required to enter your username and password when your set top box is reset.

• Go into Settings
• Move Cursor around the White Box next to Enable Login
• Press OK if the White Box is not checked to Enable Login
• Press OK if the White Box is checked to Disable Login.
• Move the Cursor down to OK on the screen and press OK on the remote to save your settings.

PPV PURCHASE SETTINGS

About this Setting: Allows you to control whether a reminder is shown or the TV auto tunes when a PPV event starts.
• Go into Settings
• Move Cursor towards PPV Purchase

• Cursor will turn green when it surrounds the white box next to PPV Purchase
• Hit OK on the remote and three options will be shown.
a. None (Nothing well happen when a PPV event starts.)
 b. Reminder (A reminded will appear on screen when a PPV event starts.)
 c. Auto Tune (The TV will automatically tune to the PPV event when it starts).
• Use arrows to highlight the option you want.
• Once option is selected press OK on remote.
• Move the Cursor down to OK on the screen and press OK on the remote to save your settings.

NON-PPV AUTO TUNE
About this Setting: Allows you to set how long before a scheduled event starts that your TV will tune to that channel.

• Go into Settings
• Move Cursor towards Non-PPV Auto Tune
• Cursor will turn green when it surrounds the white box next to Non-PPV Auto Tune
• Hit OK on the remote and several options will be shown. Select the time before the Auto Tune you would like the channel to change.
• Use arrows to highlight the option you want.
• Once option is selected press OK on remote.
• Move the Cursor down to OK on the screen and press OK on the remote to save your settings.

CALLER ID TIMEOUT
About this Setting: This setting determines how long the Caller ID window appears on the screen when you receive a call.

• Go into Settings
• Move Cursor towards Caller ID Timeout
• Cursor will turn green when it surrounds the white box next to Caller ID Timeout
• Hit OK on the remote and several options will be shown. Select an option of 15 seconds or more
• Use arrows to highlight the option you want.
• Once option is selected press OK on remote.
• Move the Cursor down to OK on the screen and press OK on the remote the screen to save your settings.

DELETING NUMBERS FROM CALL LOG
• Press MENU
• Arrow over to VAULT and press OK
• Arrow down to Caller ID Log and press OK
• Highlight the number to delete and press OK
• Select the option that works best for you and press OK

GETTING INTO PARENTAL CONTROLS
About this setting: Parental controls allow you to restrict what channels are available to watch at any given time.

• Go into Settings
• Move Cursor towards Parental

Controls so that it highlights the CHANGE button next to Parental Controls
• Hit OK on the remote to go into the parental control settings.

ACTIVATING/DEACTIVATING PARENTAL CONTROLS

About this setting: You must enable this setting in order to enable your Parental Controls.

• Go into Parental Controls
• Move cursor over to the White Box by Parental Controls.
• If there is no check in the white box press OK on the remote to check the box and activate parental controls.
• If there is a check in the white box press OK on the remote to uncheck the box and deactivate the parental controls.
• Move the cursor down to the DONE button on the screen and press OK on your remote.

CHANGING THE AVAILABLE MOVIE RATINGS

About this setting: This setting is used to determine the highest rating movie available to be watched on your TV, without entering a parental code. Thus if "R" is selected, movies of "R" rating or less can be watched without entering a code.

• Go into Parental Controls
• Move the Cursor to highlight the box next to Movie Ratings, the default rating is "R"
• To Change the current Rating press OK on your Remote and a list of options will be shown.

• Use the Arrow Keys on your Remote to highlight the option you wish to use and Press the OK button again.
• Move the cursor down to the DONE button on the screen and press OK on your remote.

CHANGING THE AVAILABLE TV RATINGS

About this Setting: This is setting used to determine the highest TV rating available to be watched on your TV, without entering a parental code. Thus if "TV-14" is selected, shows with a rating of "TV-14" or less can be watched without entering a code.

• Go to Parental Controls
• Move cursor to highlight box next to TV Rating, the default rating is "TV-14"
• To Change the current Rating press OK on your Remote and a list of options will be shown.
• Use the Arrow Keys on your Remote to highlight the option you wise to use and Press the OK button again.
• Move the cursor down to the Done button on the screen and press OK on your remote.

CHANGING CONTENT RATINGS

About this Setting: You can set your set top box to apply parental blocks to particular content ratings such as Dialog and Violence. Any program that has a rating based on these factors will require a parental code to be watched.
• Go into Parental Controls
• Move the Cursor down the

white box next to the Content Rating you wish to restrict.
• Press the OK button on the remote if the box is not checked to add a content block
• Press the OK button on the remote if the box is checked to removed a content block
• Move the Cursor down to the Done Button on the screen and press OK on the remote to save the changes.

BLOCK UNRATED PROGRAMS

About this Setting: The block unrated programs setting allows you to lock out all shows without a rating, forcing a parental code to be entered to watch those shows.

• Go into Parental Controls
• Move the Cursor over to the white box next to Block Unrated Programs
• If the box is not checked press the OK button on the remote to check the box and block unrated programs.
• If the box is checked press the OK button on the remote to uncheck the box and unblock unrated programs.
• Move the Cursor down to the Done Button on the screen and press OK on the remote to save the changes.

SHOW INFO FOR BLOCKED PROGRAMS

About this Setting: This setting allows you to control whether the info is displayed on a program which is blocked by parental settings.
• Go into Parental Controls

• Move the Cursor over to the white box next to Show Info For Blocked Programs
• If the box is checked press the OK button on your remote to not show info on blocked programs.
• If the box is not checked press the OK button on your remote to show info on blocked programs.
• Move the Cursor down to the Done Button on the screen and press OK on the remote to save the changes.

CREATING A FAVORITES LIST

About this Setting: PBTV allows you to create multiple favorites list to which you can add and remove channels to quickly view particular groups of channels.
• Press the Menu button on your remote.
• Use the arrows on the remote to move the cursor to around the Favorites option.
• Press the OK button on your remote.
• Use the arrows to move the cursor around create.

10) Press OK on the remote.

BASIC DVR OPERATIONS

On your PBTV remote you will find six buttons that are related to the basic DVR operations. These buttons are: Play, Stop, Record, Pause, Rewind, and Fast Fwd.

The Play Button
The Play button is used to play previous recordings or to restart paused TV programming.

The Stop Button
The Stop button is used to stop a recording that is playing.

The Record Button
The Record button is used to immediately start recording the program you are watching. You can record or watch two programs at once. For example you could watch ESPN and record NBC. However if you record both ESPN and NBC you will not be able to watch any other channels.

Stopping a Recording
To stop a recording in progress press the stop button on the remote. The Following Screen will appear. Highlight Yes and Press OK.

The Pause Button
You can use the pause button to pause live TV and the resume it at a later time. To resume watching TV press the pause button again or press the play button. Pressing the Rewind Button multiple times will increase the speed that the recording is rewound.

The Rewind Button
You can use the rewind button to rewind a program that had been recorded or paused. You can only rewind to the point where the program had been paused or recorded. Pressing the Rewind button multiple times will increase the speed at which you rewind.

The Fast Forward Button
You can use the fast forward button to fast forward through programming that had been paused or recorded. Pressing the fast forward button multiple times will increase the fast forward speed.

Am I recording?
If you hit INFO on your remote the info bar will come up and a red dot or double red dot will show on the right hand side if you are recording, though this will only indicate if you are recording the currently viewed program.

ADVANCED DVR OPERATIONS
Schedule Recording
Highlight an upcoming program in the guide and press RECORD a single dot will appear indicated this program will be recorded once. Press RECORD again and a double dot will appear, this indicates that the entire series is recorded (see below for details on Series Recording).

The Basic Program Menu
To open the Program Menu highlight a program yet to occur and press OK the Program Menu will appear.

Record Program
The Record Program option allows you to record a single instance of a program occurring at a specific time. To use Record Program highlight it in the Basic Program Menu and press OK.

Record Series
The Record Series option allows you to record all instances of a program occurring on a specific channel. To use Record Series highlight it in the Basic Program Menu and press OK.

The Advanced Recording Menu
If you are in the guide and press OK while a program to be recorded is selected, this will bring up the Advanced Recording Menu. This menu will similar to the Basic Program Menu however depending on the type of recording it will have some different options.

Edit Recording (Program and Series Recording)
You can use Edit Recording to pad a recording. Padding either adds or subtracts to the beginning or end of the recording.

Edit Series Recording (Series Recording Only)
You can use Edit Series Recording to change the options for a Series recording. You can change the options by highlighting them and pressing the right and left arrows. The options are as follows.
• Channels - You can either select the channel where the recording was initially started or all channels. Default: Initial Channel
• Preference - You can record either Standard or High Definition Programs. Default: Standard
• Episodes - You can record either all instances of this program or all new episodes. Default: All
• Pad In - You can add to the beginning of the recording. Default: 0 mins
• Pad Out - You can add to the end of the recording. Default: 0 mins
• Limit to - You can limit the number of recordings to All, 1 time, 5 times, or 10 times. Default: All

Skip Episode (Series Recording Only)
Selecting Skip Episode from the menu will cause recording of this specific instance of a program to not be recorded.

Record Episode (Series Recording Only)
Selecting Record Episode from the menu will cause an instance of a show to be recorded that was not previously going to be recorded.

Cancel Recording (Program Recording Only)
Selecting cancel recording will cancel this Program Recording.

Cancel Series Recording (Series Recording Only)
Selecting Cancel Series Recording will cancel the series recording and all instances where this program will be recorded.

THE DVR MENU
The DVR Menu gives you access to various options which allow you to control your recordings. Getting into the DVR Menu
• Press MENU on the remote.
• Use the Arrow Keys to Highlight DVR.
• Press OK on the Remote.

Recordings
The Recordings menu provides you with access to you current recordings. If you select a recording in the Recordings menu and press OK you will be presented with three options other than cancel.

Play Recording
This option starts playback of the recording.

Deleting a Recording
This option deletes the recording.
Lock a Recording
Locking a recording prevents the recording from being automatically deleted by the DVR to make room for new recordings.

To Record Menu
You can use the To Record option to see a listing of all scheduled recording events. To get into the To Record menu, highlight it in the DVR menu and press OK on the remote. To scroll through the To Record list, press the right arrow and then use the up and down arrows to move through the list.

Schedule Priority
When more than two programs are set to record at the same time a scheduling conflict occurs. In order to resolve a scheduling conflict the DVR will record only the two that are highest on the priority list. A notification of this will show on the screen and in the Record History.

Schedule Event
You can use the DVR to schedule a recording at a specific time and channel.
• Press OK on the remote while the box to the right of Ch: is highlighted to change which channel is recorded.
• Press OK on the remote while the box to the left of "hrs" is highlighted to change the number of hours the recording is for.
• Press OK on the remote while the box to the left of "mins" is highlighted to change the number of minutes the recording will be for.
• Press OK on the remote while the boxes next to "On:" are highlighted to change the month or day respectively that the recording is for.
• Press OK on the remote while the boxes next to "At": are highlighted in order to change the hour, minute, and AM/PM respectively.
• Leave the Type field as recording.
• Press OK on the remote while the box next to Freq is highlighted to change the how often the recording will occur.
Your options are:
• Single (one time recording)
• Every Day (recording occurs everyday, date is disregarded)
• Every M-F (recording occurs every Monday to Friday)
• Weekly (records on the same day every week)

Record History
You can use the Record History option in the DVR menu to show a listing of all programs that have been recorded, or recording related events.

To get into the Record History highlight it in the DVR menu and press OK on the remote.

To Scroll through the Record History Press the right arrow and then use the up and down arrows to move through the list.
